PREMIUM VISCOSE FILAMENT YARNS FROM RAYSIL

100% NATURAL AND BIODEGRADABLE.

ABOUT RAYSIL

Rayasil, the fashion yarn, is a 100 percent natural yarn of cellulosic origin, commonly referred to as viscose filament yarns amongst those who weave luxurious fabrics.

Rayasil is produced from superior quality wood pulp. This makes Rayasil extremely skin-friendly and comfortable. Rayasil is the secret behind every rich fabric that has a superior lustre, drape and fluidity. Additionally, Rayasil has a rich lustre, brilliant colour depth, excellent softness & smoothness, high thermal protection, no pilling and anti-shredding properties.

Rayasil creates the best of fabrics, apparel, embroidery & home textiles.

THE JOURNEY OF RAYSIL

Sustainability practices form the core of Rayasil. The Yarn starts its journey from sustainable forests, weaves its way to express the dreams and imagination of designers and craftsmen, wins the hearts of the wearer and gently returns to into the folds of nature as a biodegradable product. The best quality wood pulp is responsibly sourced from sustainable and traceable forests to make 100% natural viscose filament yarns. The yarns are carefully woven to create a wide range of fabrics that are extremely skin-friendly and comfortable.

THE RAYSIL COMPOSITION

Raysil is amongst the most versatile textile raw material available today. It is flexible in terms of 100% usability and also in blends. Raysil® comes in a wide array of colors (600 shades with flexibility to reproduce any shade as per customer requirement), including natural whites. It ranges from the purest tints through medium tones to vibrant deep shades in fine to coarse deniers ranging from 20 denier to 1200 denier. It is all about the ability to adapt to latest trends in fashion and creating fabrics that truly address any women's wardrobe demand list effectively. Beyond the regular superfine, fine and coarse yarn range, Raysil also offers

Air-texturized yarns

Double and twisted yarns

Dull yarns

Flat yarns

Special yarns

Yarns with two tone effect and many more.

Raysil creates evergreen fashion crafted for her grace with the best of georgettes, crepes, chinnons, chiffons and also fabrics that truly replicate organic weaves like tussar and muslin. A variety of blends with cotton and other natural fibres are also easily available. The fact that Raysil is also able to provide a range of embroidery threads that perfectly compliment these fabrics adds to the adaptability of the Raysil range of products.

Grasim Industries Limited (VFY – Fashion Yarn Business) is the largest viscose filament yarn (VFY) manufacturer in India and 3rd largest globally with a rich heritage of over 60 years belonging to the Aditya Birla Group, a global conglomerate in the league of Fortune 500. The company is also the largest VFY exporter in India with exports to 45 countries.

The fashion yarn – Raysil® is manufactured at its twin locations in India i.e., Shahad, Maharashtra and Veraval, Gujarat with a combined capacity of 48,000 TPA. The company is accredited with ISO 9001, ISO 14001 (Environment), OHSAS 18001 (Health & Safety),

REACH compliance, OEKO-TEX certification. Raysil® also has FSC (forest stewardship council) certified yarn and is regularly being used across international brands.

At Raysil®, our endeavor is also to create an ecosystem for a premium fashion that is a one-stop solution to the needs of the fashion industry, brands and retail keeping the constantly evolving consumer preferences in minds. We extend our support through value chain networking, brand and retail connect, design and innovation and technical services.
